

# The Cerco Building Controls Cabinet

The World's First Building Controls Cabinet Designed Specifically for YOU!

## STRONGER CONSTRUCTION

- Thicker 14-gauge steel means no twisting
- Less susceptible to damage in ganged installations

## EASY H-FRAME MOUNTING

- No drill templates required
- 8 pre-perforated holes for mounting on a 19" H-Frame.

## REVERSIBLE CABINET DOORS

- Left or Right hand installation without having to remove cabinet
- Easier to service and work on the cabinet

## LIGHTWEIGHT BACK PLATE

- Perforated, lightweight design so only one person needed to install it
- Pre-assemble the plate at the shop while the electrician does EMT conduit at the job site
- Removable set of handles makes it easy to manoeuvre into place
- Saves you time and money

## GANGED INSTALLATIONS MADE EASY

- Mount cabinets side-by-side to save a ton of space
- Fit four 24" cabinets in the space of three regular panels on an 8-foot wall
- 8 knock-outs for easy inter-cabinet connectivity
- Eliminate ugly conduit and save time

## Why?

If you're like most Building Controls installers, when it comes to cabinets, you've probably spent most of your career using equipment designed for general electrical applications. And you've probably gotten pretty good at "making them work".

We asked our customers to tell us exactly what was wrong with the existing system. We took that feedback and designed a Certified Building Controls Cabinet that just makes your life easier.

Now take a minute and picture the time and cost savings you'll achieve with these cabinets...it seems ridiculous to keep wasting money on panels that just aren't up for the job.

You can use a coin to turn a flathead screw, but why would you when there's a better tool for the job?

## Technical Specifications

Steel	14 gauge, NEMA 1 rated
1-1/4" knock-outs for inter-cabinet connectivity	8
Back plate	Sold separately for independent panel assembly
Cabinet door	Reversible
Lock and key	Included

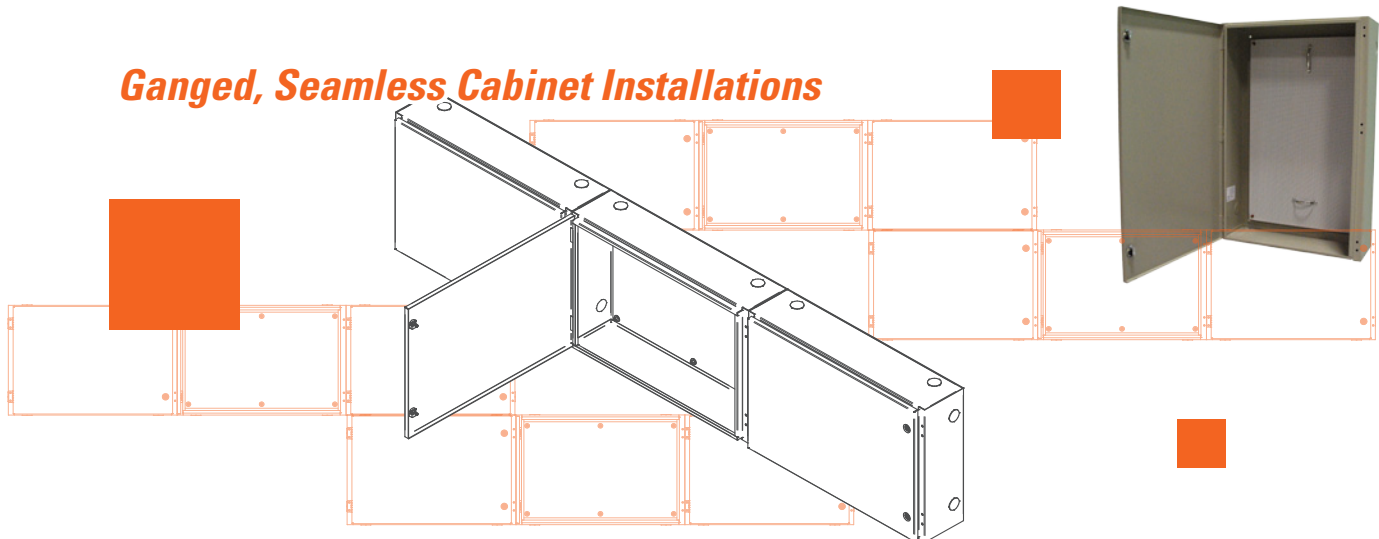

## Product and Part Numbers

Part # HVAC HMF24208	24"x20"x8"
Part # HVAC HMF2420-PBP	Back Plate
Part # HVAC HMF36248	36"x24"x8"
Part # HVAC HMF3624-PBP	Back Plate

*Custom sizes available upon request.*

*"Louver door" styles available upon request*
